Scarborough branch

Cisnet is committed to delivering the highest quality IT training in the most advanced technologies available. This commitment extends to every aspect of our school. Cisnet offers specialized training for Cisco Routing & Switching, VOIP, Wireless, Security, Microsoft, Comptia, Linux, ITIL and recently Juniper certifications. Training is supplemented with course materials and in-class labs to provide students with a perfect mix of theory and hands-on knowledge which is essential in order to succeed within the industry. With a CCNA pass rate of 90%, we have earned a positive reputation for our training abilities.

IT Managers trust Cisnet to deliver leading-edge Authorized Vendor courses that prepare their staff for real-world situations. This class to job transition requires instructors who go above and beyond the course books and learning labs to create an educational environment that caters to the unique needs of each student. To help IT professionals increase productivity, Cisnet has a team of Vendor-Certified instructors with real, hands-on knowledge that they can translate into an experience which prepare students for the challenges.

Benefits of Classroom Training:

- Comfortable learning environments with the cutting edge technologies in GTA
- Personal interaction with peers and instructors that creates a collaborative learning environment
- State-of-the-Art equipment available and best-in-class technologies for each student's use
- Lab exercises that simulate real-world technical issues providing students hands-on troubleshooting experience

Cisnet Management Team

Sam Fareed, (President -Cisnet) Sam is an innovative entrepreneur who is currently

spearheading Canada's Largest Network Training Centre for the last 15 years. Within this short span Sam has successfully created over 15,000 professionals for Cisco and Microsoft Technologies. He is the founder of Cisnet managing most aspects of the business from administration, finance and management. His vision is to provide quality network training for an affordable fee. He is now in the process of developing a one-of-a-kind concept known as "Live Network Training" (online/distance mode training) to provide cost-effective services to the North American Region. Cisnet is further strengthening its reach by opening branches in Toronto, Ottawa, Vancouver and New York by mid of 2013.

Mani Poopal - (Manager-Technical Services) Mani has over 16 years of industry experience in managing different types of network infrastructure. He graduated from an Indian University and is currently working as a Senior Design Engineer for a major Telecommunication Company in Toronto. Mani has provided his specialist services to many Telecommunication sectors in Canada as a Consultant. His technical acumen is highly sought after. At Cisnet Mani is responsible for building and providing network infrastructure and technical services to participants.

Ravi Sri (Manager -Training & Development) Ravi is an internationally trained professional for Train Trainers. Currently he is working as an Instructor for the Diploma in Enterprise Network Engineering at Citi College. He was trained by United Nations ESCAP, Commonwealth Services Abroad Program and many other International Organizations. He graduated from a Sri Lankan University and has many industry certifications from Sun Micro-systems, Microsoft and Cisco. He has trained over 5,000 professionals during his career since 2004.

At Cisnet, Ravi is responsible for Training & Development. He aids in the development of course material for instructor-led training and online training programs.

Ravi has been fortunate enough to be able to provide his services to Sri Lankan Government, NGOs, Fortune 500 Companies and United States Armed Forces. He was the Director of IT for the Centre for

Strategic Management in Sri Lanka, Lecturer for Distance Learning Centre ? a node Global Development Learning Network under World Bank. One of his eminent works was to train 600 School Managers under Asian Development Bank Funding. Lastly, he was one of the award winning Trainers at HS&E in Kellogg-Brown & Root, a Global Engineering and Military Service Provider.
