Introduction

Network+ course serves as a general introduction to computer networking including local and wide area network technology. This course prepares you for the CompTIA Network+ Certification Examination.

Network+ Training Logo To become Network+ certified, you have to pass one exam: N10-005 Network+ Exam offered by CompTIA (Computer Technology Industry Association).

Network+ covers the areas of network architecture, topologies, protocols especially TCP/IP, network operating systems, network installation, upgrading, troubleshooting, managing user accounts and passwords, network securities, remote access and administration, and fault tolerance and disaster recovery.
